MATHEMATICAL STORMS NEEDED.

The genial, gentle rain has come again. It is the poet who sits in a cosy library, beside a big fire, dressed in a comfortable dressing-grown and easy slippers, with a two-bit cigar or a pipe of the finest tobacco, and writes of the rain he hears pattering on the window, who is responsible for this expression: Once in a coon's age a man may feel rain that is genial and gentle, but this kind of weather, this kind of straight up and down, business-like, so many inches a day rain is neither genial nor gentle. The farmer stands in one patch of his ranch in a pair of gum boots and a suit of overalls and a slouch hat, and thanks heaven for the rain, and he moves into another patch and curses the luck that brings rain there. If Providence wanted to do the square thing by this earth he would have little clouds made in parallelograms, and rhomboids, and quadrilaterals, and triangles, and drop them down to order of the farmers, who would only need to give specifications of their fields and put 10-cent special delivery stamps on their requests. But the fact is that the country is enriched at the expense of the dry goods stores and all the legitimate occupations of town. What a fine time we should have in the way of weather if it were not for the farmers.—*San Francisco Chronicle.*

A GOOD GIRL.

"Now, Minnie," said a mother to her 4-year-old daughter, "I want you to play with your little brother while I am down town."

"An' what will bring you bring me?"

"Never mind, I will you something, and now mind you, if he wants to play with your toys you mustn't cry."

"Nome."

When the lady returned the little girl ran to her and said:

"I played with my little brother. Now what did you bring me?"

"Mamma brought you an orange. Where's little brother?"

"He's sleep. Gimme orange."

She took the orange and said: "When he grabbed my dishes I didn't cry."

"You didn't? Why you are a good little girl."

"Yessum, an' when he grabbed my doll I didn't cry eiver."

"Didn't you?"

"Nome."

"What did you say?"

"Nuffin', but I knocked him down wif the little chair."—*Arkansaw Traveler.*

The Weather.

WASHINGTON, Feb. 3.—Following are the weather indications:

Indiana, fair weather, colder and northerly winds.

The cool winds chill the heart of the ice cart driver, and he now sits shivering on his box, a blue nosed victim of dispair; the striking words "use Dr. Bull's Cough Syrup" stare him in the face.

Worth his weight in gold, Salvation Oil. 25 cts.

WHAT A FARCE!

Some of the Republicans Meet and Appoint a Committee to Prepare an Election Contest Against Senator Turpie.

INDIANAPOLIS, Ind., Feb. 3.—The republicans do not admit the legality of Turpie's election to the United States senate or that the work of the joint convention was perfected in the proceedings of Wednesday.

On the other hand, the democrats claim that the record is valid and the joint convention adjourned yesterday sine die.

In accordance with the motion of Representative Gardiner, which the republicans say prevailed, the joint convention reassembled to-day at noon, with all the democrats and seven republican senators absent.

Speaker Sayre presided and the clerk of the house called the roll of both houses in the presence of a crowd as as large and as keenly interested as any that have assembled in the house of representatives from day to day during the contest.

Ten senators and fifty-six representatives of the republican side answered, but the democratic members were silent. They were regarded as absentees until the roll of that class was called, when the speaker announced the presence of each one, but not answering.

Representative Gardiner then accented a preamble and resolution, reciting the illegality of the election of Turpie and the pretended adjournment of the joint convention sine die and calling for an investigation, in order to prepare a roll of contest to be presented to the United States senate. The resolution provided for the appointment of a committee of five to pursue this investigation and to prepare a memorial.

The paper was adopted and the committee appointed thereunder consists of Senators Winters and Puston and Representatives Gardiner, Griffiths and Linch. An adjournment was then had.

FAIR WARNING.

Three Negro Murderers Labeled and Lynched by the Road Side in Texas.

SAN ANTONIO, Feb. 3.—A mob of masked men, about thirty-five strong, entered the jail at Sequin, Guadalupe county, early yesterday morning, and after overpowering the jailer, took three negroes, Coly Thompson, Andy Williams and Warren Wilson, and hanged them to trees in full view of town. On each victim was tacked this notice: "Killed for Murder and Arson." Several weeks ago the victims attacked a camp of four Mexicans and shot two to death. They heaped brush on the bodies of their victims and burned them almost to a crisp.

FRIGHTFUL.

A Michigan Settler is Attacked and Eaten to Shreds by a Bear.

CHEBOYGAN, Mich., Feb. 3.—Julius Hanley, a settler near Wolverine station, thirty miles south of this village, while locating section lines through the woods on snow shoes, came suddenly upon a ravenous bear a short distance from his cabin, and a terrible encounter ensued. Hanley's ears and nose were bitten off, his face frightfully slashed and the flesh on his breast torn off in strips. One hand was chewed off and the bowels apparently ripped open. He was found in his cabin in a dying condition. Hanley fought with a pocket knife.

RAPIDLY RISING.

The Heavy Rains Threaten a Flood in the Ohio Valley and a Deluge at Cincinnati Imminent.

CINCINNATI, O., Feb. 3.—Beginning at 1 o'clock this morning and continuing until 7 o'clock there was a heavy and almost constant rain fall, accompanied by lightning and thunder. The river which at midnight was forty-five feet and four inches, reached forty-eight feet and four inches at 9:30 o'clock this morning. This rate of rising is due to local causes, the Licking river being the chief cause. Still the rain above will keep the river rising for several days and there will undoubtedly be necessity for the removal of goods in the lower cellars of the houses near the river.

2 p. m.—The condition of the river is causing the livliest speculation among persons having goods in the lower lands of the city, as to what stage it will reach. At noon it was forty-nine feet and eleven inches and rising six inches an hour. The rain stopped about 7 o'clock and the thermometer began steadily falling, but advices from up the river show a heavy rain storm falling at all points above.

The Big Sandy is rising rapidly and will reach twenty-five or thirty feet, while the Ohio at Catlettsburg is rising at a rapid rate. At Portsmouth the Ohio is rising six inches an hour, with a flood guage in all the tributaries and with a rising river from Pittsburg down. There is a probability that the river here may reach sixty feet, even if a cold wave comes to-night. At fifty-two feet many cellars will be submerged. The rain fall here in the past twenty-four hours was 2.9 inches.

BELVIDERE, N. J., Feb. 3.—There is an immense ice gorge in the Delaware river, near Shawnee, Pa. The ice has been piled up fifty feet and the water has been forced out of its natural course and overflows the lowlands.

THE STRIKE.

Agents are Sent to Western Cities for Men to Take the Place of the Strikers.

CINCINNATI, Feb. 3.—The Knights of Labor who have been watching the matter closely, say that agents are here trying to employ men to take the place of the strikers in New York City and that they are offering free transportation and $15 to $18 a week, with extra pay for over time. It is asserted that the fifty men who have been obtained here were joined by the Knights, who on the way will endeavor to dissuade them from working against the interests of the workingmen.

NEW YORK, Jan. 3.—Very little freight is being moved along the river front this morning and most of the railroad piers on the west side are still closed.

GUNS VS. TREATIES.

Senator Riddleberger Explains His Position on the Fishery Question.

NEW YORK, Jan. 3—Patrick Ford, of the *Irish World*, has received a letter from Senator Riddleberger explaining why he voted against the fishery retaliation bill, in which he says: "If we would have the respect of England we must command it, and there is but one way to command it. Beginning with retaliation, so called, will ultimately end in treaties which may swap American citizens for boodle alderman. Guns are better guarantees against insults and injuries than paper treaties. Such is my humble opinion."

STRICT DISCIPLINE.

It is pretty generally known that the discipline of the German army is very strict. The martinets who are in command are very punctillious. One day a soldier appeared on dress parade with the bottom button of his vest unbuttoned. It immediately caught the eye of the inspector.

"What do you mean, sir?" he shouted, growing as red as a turkey cock, "what do you mean by appearing on dress parade half naked?"

THE privilege of talking with a woman 111 years old is not to be expected often in a lifetime, writes a Vienna correspondent of the *London Times*, and one must therefore value such an interview as I had this afternoon with Magdalene Ponza, the oldest of the Emperor Francis Joseph's subjects, who entered her 112th year on Christmas Eve. She was born at Wittingau, Bohemia, in 1775, when Maria Theresa sat on the Austrian throne. George III. had then been but fifteen years king of England, Louis XVI. who had ruled a little more than a twelvemonth in France, was still in the heydey of power, the independence of the United States of America had not yet been declared. Napoleon and Arthur Wellesley were as yet but six years old. Magdalene Ponza retains full possession of her mental faculties. Unfortunately she can only speak the Czech language, and she can neither read nor write. However, she answers questions briskly enough through the youngest of her surviving grandchildren, herself a woman of 60. Magdalene Ponza's age is authenticated by the outdoor-relief certificate of the Viennese municipality, which, with magnificent generosity, allows her 4 florins and 40 kreutzers—about 6s. 6d.—a month, The venerable dame lost the last of her teeth thirty years ago, but she has an excellent appetite, eats meats minced, drinks a little beer daily, and hobbles about her room without much difficulty with the help of a stick. Sixty years of her life were spent in her native village, more than thirty years in another village, and she was past 90 when she came to Vienna, seventeen years ago. All the doctors who have seen her pronounce hers to be one of the most extraordinary cases of longevity on record, for she complains of no ailments beyond a slight asthma. Her worn face, with its countless wrinkles, does however, look preternaturally old.

GELLER'S NEW PLACE

His New Chicago Bakery and Ice Cream Parlors to be Opened to the Public on Saturday Afternoon and Evening—Don't Fail to Make a Visit.

A SENTINEL representative was yesterday accosted by Mr. W. F. Geller, of the famous Chicago bakery, with the remark, that knowing the fastidious tastes of a newspaper man, who, by the way, eats just like any other mortal, he was very desirous of showing him through his new place of business, which was to be opened to the public on Saturday. Some time ago Mr. Geller purchased the Remmell block, corner of Broadway and Washington streets, with a view to converting it into a bakery, his constantly increasing business demanding the change and he to-day justly points with pride to an establishment second to none in the state. The building has been changed from cellar to garrett and every change carefully considered and made to conveniently suit the bakery business. On entering the salesroom on the first floor the fine display of fancy cakes in endless variety, creams, French candies and bon-bons is equal to a Chicago lay out. Passing on through you are ushered into the ice cream parlors, the most elegant apartments of this kind ever seen in the city. The decorations are grand and were executed under Mr. Geller's special directions by William Yergens. The furniture and carpeting are superb and lend a decidedly inviting look to the room. The chandelier for lighting this room deserves more than a passing notice. It is of the finest polished brass and of the latest and most expensive pattern, making a splendid contrast with the rich decorations. The ice cream manufactory also occupies the rear of this floor, where he manufactures every flavor of that luxury known to the trade.

The second floor has been partitioned off into rooms conveniently arranged and handsomely furnished to be occupied by him as living apartments.

On reaching the third floor we were shown the work room, or where the process of baking is done. The mammoth bake oven, with a capacity of five hundred loaves of bread, is ten feet in height and something entirely new, was purchased of Roth, McMahon & Co., of Chicago, and known as the portable reel oven and is the only one of the kind in Indiana. It is built of sheet iron. The bread in pans revolves on the inside, on the same principle as the turning of a reel, thus doing away with the old-fashioned oven, in which a fire had to be made and then the ashes removed previous to baking. On this floor his work benches stretch along the sides of the room, dough trays here and there and in fact all the modern conveniences to be found only in a really first-class bekery. The public are cordially invited to come and see the art of making bread in his establishment and look through the building. An elevator is always at the service of visitors and pleasant attendants will show you around. The formal opening will be on Saturday afternoon and evening.

Back to the Berry Street M. E. Church.

After a week of overwhelming success at the Academy of Music, the Methodist alliance has retransferred the revival meetings to the Berry Street M. E. church. Mrs. Frame, the brilliant revivalist, has been induced to tarry in the city a short time longer and will continue to exert her influence to bring the people to the foot of the cross. Last night a great concourse of people attended the meeting and the auditorium and balcony of the church became so crowded with eager auditors that it was found necessary to lock the doors against a further increase of numbers. At the conclusion of the sermon many went forward to the altar. Many persons gave their experience and it was a genuine surprise to see the large number of young folks rise and give testimonials of their work and love for the Master. The meeting will be held again to-night and persons desiring seats should be on hand very early.

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily.

BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In *women* the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

Within thirteen months one Vice President—Hendricks—has died, and within less than two years there has died an ex-Vice President. Four men who were unsuccessful in their canvass for the Presidency have died within a little over a year—McClellan, Hancock, Seymour, and Tilden—and one unsuccessful Vice Presidential candidate—B. Gratz Grown. English alone remains of the national candidates of 1880. Of the men, successful and unsuccessful, who have run for the Presidency, all are dead save Fremont, Hayes, Blaine, and Cleveland.

Catarrh

Is a very prevalent and exceedingly disagreeable disease, liable, if neglected, to develop into serious consumption. Being a constitutional disease, it requires a constitutional remedy like Hood's Sarsaparilla, which, acting through the blood, reaches every part of the system, effecting a radical and permanent cure of catarrh in even its most severe forms. Made only by C. I. Hood & Co., Lowell, Mass.

Very cold weather is reported from the northwest and snow at Chicago.

A timely Dose, and an external application of *Pond's Extract*, will stop and cure Coughs, Colds, Inflammations or Hemmorrhages of all kinds. It is well to keep a bottle of this wonderful remedy at hand for all emergencies. *Get the Genuine.*

Rheumatism

We doubt if there is, or can be, a specific remedy for rheumatism; but thousands who have suffered its pains have been greatly benefited by Hood's Sarsaparilla. If you have failed to find relief, try this great remedy.

"I was afflicted with rheumatism twenty years. Previous to 1883 I found no relief, but grew worse, and at one time was almost helpless. Hood's Sarsaparilla did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley Village, Mass.

"I had rheumatism three years, and got no relief till I took Hood's Sarsaparilla. It has done great things for me. I recommend it to others." LEWIS BURBANK, Biddeford, Me.

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion;* 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

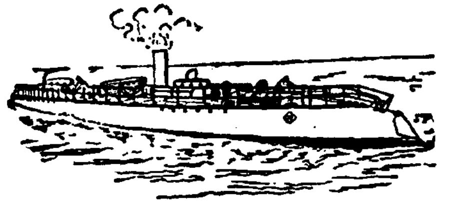
WAR SHIP OR GUNBOAT.

WHICH SHALL PREDOMINATE IN THE FUTURE NAVIES?

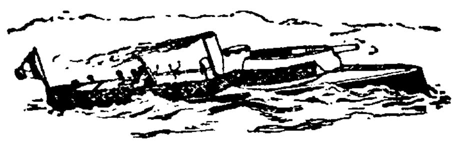
The Argument in Favor of Small War Vessels and Torpedo Boats—What Europe Is Doing in the Matter—Recent Trials.

According to Admiral Porter, "the grand total appropriated during the year for the increase of the United States navy has been $5,647,617." The result is that the navy has dwindled down to twenty-eight vessels that can be actually used for active service. "Twenty of these," says the admiral, "are only third rates and five of them are about equivalent to tugs." Millions have been wasted on "repairs" though. An effort is being made to remedy this neglect by beginning the construction of a navy at once. The navy department at Washington is besieged by designers of war ships and plans of coast defense. Inventors are giving all their attention just now to the subject of warfare. But the problem before the navy department is, whether we shall have a large fleet of small and swift torpedo or gunboats, with a few cumbersome iron clads, or whether it shall be plenty of large war ships and a few small ones. A point argued in favor of the smaller vessels is that they can be quickly built and the heavier work of protecting the harbors and cities along the coast can be left to the land forts and batteries. At this time it is interesting to note what is being done on the other side of the Atlantic in the matter. The foreign periodicals teem with illustrations and descriptions of war engines of all kinds, but it is noticeable that considerable attention is given in naval experiments to small gunboats. Two of the latest vessels of this class are presented here.



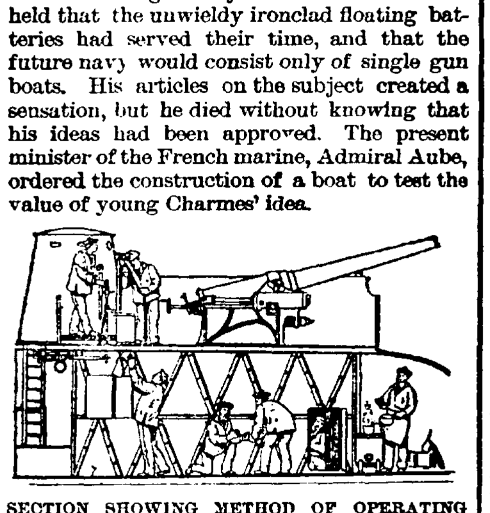
AN ENGLISH TORPEDO BOAT.

The illustration shows a torpedo boat, No. 79, just submitted to a trial by the British government. Its number would indicate that there were seventy-eight similar boats to be constructed. On the trial trip the boat was put to the most severe tests to satisfy the admiralty board and the speed realized surpassed anything heretofore found in vessels of similar character. On a continuous run of two hours' duration the boat sailed a distance of nearly fifty-two miles. Two miles were made at the rate of twenty-six and a half miles an hour. Then the maneuvering of the boat was tested. When going ahead she turned in fifty-eight seconds in a circle whose diameter was eighty-five yards, when backing she turned in a circle of sixty-five yards diameter in sixty-five seconds. Some of the larger torpedo boats in the British service have been named Rattlesnake, Grasshopper, Spider. No. 79 should be named the Eel from the way in which she could squirm around among a hostile fleet. She is but 125 feet long, with a beam of thirteen feet. She possesses two steering towers connected to each of which are two torpedo guns. There is also a torpedo gun built into the bow of the boat for direct ahead fire.



THE NEW FRENCH GUNBOAT.

This is the latest addition to the French fleet of small and fleet war vessels; it is named the Gabriel Charmes after its designer. Charmes was an enthusiast on the subject of revolutionizing the style of war vessels. He held that the unwieldy ironclad floating batteries had served their time, and that the future navy would consist only of single gun boats. His articles on the subject created a sensation, but he died without knowing that his ideas had been approved. The present minister of the French marine, Admiral Aube, ordered the construction of a boat to test the value of young Charmes' idea.



SECTION SHOWING METHOD OF OPERATING GUN.

His boat has just been tried with most satisfactory results. She is 134½ feet long, 12½ feet wide and 8½ feet deep. Her hull weighs 27 tons, her machinery 22 tons and her single gun 11½ tons. In the sectional view is shown the method of operating the gun. The carriage of this piece is arranged so that the force of the recoil at the moment of firing not only puts it under cover during the reloading but also brings it into place again when ready for firing.

The gun has a caliber of only 5½ inches, but owing to very energetic explosives used the destructive results are very great. The gun being placed immediately in front of the pilot house permits of the horizontal aim being given to it by the pilot. The firing of a projectile weighing sixty-six pounds can be performed at the rate of one a minute. The method of passing the ammunition up to the gun is shown in the illustration. On the trial trip this vessel showed a speed of twenty-three miles an hour.

In the matter of other small torpedo boats the French have 9 under 70 feet in length: 41 under 100 feet; 18 of 108 feet, and 51 of 114 feet; in all 128 of high speed and armed with machine guns only, besides their torpedoes.

England has more torpedo boats than France. There are 139 of the following lengths: 84 of less than 114 feet; 53 of 125 feet, and two longer.

Quite an Embarrassing Situation.

A rather comical adventure befell two very stylish young American married ladies the other day on the boulevards. They set out to take a stroll and to look at the shops, and while slowly making their way along the crowded thoroughfare they were struck by the amount of attention that they excited. People stopped and gazed at them, and altogether they felt themselves quite the success of the afternoon. Suddenly one of them chanced to look around and realized the situation. "Good gracious, Kitty!" she gasped, "we are walking between two of the sandwich men of the Paris Casino—we are being taken for advertising women!" The sudden way in which my pretty young countrywomen disappeared down the nearest side street can better be imagined than described. —Paris Cor. Philadelphia Telegraph.

They Couldn't Help It.

Alexander conquered worlds, Napoleon made great nations tremble at his approach, but neither of these illustrious men could eat asparagus without spilling some of the melted butter upon their shirt fronts.

SETTLED ON THE SPOT.

After standing in front of the store for several minutes, seemingly undecided what to do, he entered and asked for the proprietor and then began:

"My ole woman was gwine 'long yere las' night and fell down on your sidewalk and busted her elbow."

"Ah! Well, being you are a poor man I'll make the charges as light as possible!"

"But dat hain't de case, sah. A lawyer tells me dat you is 'sponsible fur dat slippery sidewalk, an' dat I kin git damages."

"Exactly, but you don't understand the matter. In the first place you must fee your lawyer and put up for court expenses. Then you prove that I own the sidewalk. Then you prove that your wife was not guilty of contributory negligence. Then you prove that your wife didn't bust her elbow by falling down stairs. Then I appeal the case and the higher court grants a new trial. By that time your wife and her busted elbow are dead and buried and you are married again, and you offer to settle for five pounds of brown sugar."

"Fo' de Lawd! but has I got to wade frew all dat?"

"All that and more. The grocery business is cut so close that I shall probably be bankrupt by April, and then what good will a judgment do you?"

"Dat's so—dat's so."

"Or the case may hang in the Supreme Court until both of us are dead."

"I see. And you would gin two pounds of brown sugar to settle de case now?"

"Well, yes."

"Den you may do it up, an' arter dis de ole woman takes de odder side of de street or we dissolve partnership! The Breath of a chronic catarrh patient is often so offensive that he cannot go into society and he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked and frequently entirely destroyed. A constant source of discomfort is the dripping of purulent secretions into the throat, sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant results which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only real cure.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Councilman Milton M. Webber called at our office this morning and requests us to state that he is in favor of having the laws enforced. He says it don't make any difference who they touch, let them be enforced. Mr. Webber is strictly in favor of closing all saloons in the city and suburbs at 11 o'clock at night and on the Sabbath day, providing all are served alike.

The following circuit court jurors were selected by the commissioners yesterday: Edward Carey, Joseph Fry, Lewis Fox, city; John Douglas, Cedar Creek township; Joseph Bolinger, Lafayette; Wesley Holopeter, Cedar Creek; Tyler Gillett, Milan; Joseph Whittaker, Adams; Wm. Schomp, Perry; Victor Cavalier, Lake; Archibald Bell, Lafayette; Nicholas Madden, Eel River.

Prosecuting Attorney Dawson says the day and night police officers, or the constables, can enforce the liquor laws if they desire to do so, or if the municipal officers insist on it. He also feels that the press should create a strong public sentiment backing such an enforcement and doubts that such a sentiment predominates now. He says he has been seeking information from the Reform League, but individually they decline to act and collectively they are silent. Mr. Dawson admits there is need of reform and points to the fact that not only officers, but courts, lean toward the Liquor League, from the fact that the lowest possible fine is always imposed on offenders. It is now in order for the municipal authorities to speak out.

For 1,700 years February 2d has been a Roman Catholic holy day.

In a recent interview Congressman Lowry admirably says: "I am opposed to removing the internal revenue on tobacco, for the reason that the reduction should be on necessaries first. A reduction of internal revenue taxes would be urged as suffcient reason for no further reduction of tariff duties. I favor a reduction on sugar. I think it would be desirable."

A lodge of the United Order of Honor was instituted in this city last evening, by Grand President Henry Wessel and Supreme Secretary Ernest Duden, both of Indianapolis. The councilmen again wrestled with the revised ordinances last night and finished consideration of the street, sidewalk and sewer laws. The question of restoring to the city ordinance book the enactment making it unlawful for the proprietor of a saloon or tippling house to keep the doors of his place of business open on Sunday still hangs fire and will come before the general council. City Attorney Colerick pronounces it constitutional, in fact it was formerly the law for years until ex-Councilman Hetler secured its repeal in the council. Columbia City *Post:* "Will Markwood is now stationed at Fort Wayne, in the employ of the Pittsburg, Fort Wayne and Chicago Railroad company."

The change in the weather has caused much sickness in the city. Children appear to be the greatest sufferers, but their illness is not of a serious nature, bronchitis being the most common.

Mrs. McBride, wife of Judge McBride, who recently presided in the superior court here, continues in poor health and for six weeks has been unable to leave her bed only as assisted by her family.

The freight agent of the Lake Shore and Nickel Plate railroads has notified consignees that hereafter all grain arriving at Buffalo over those roads will be stored in the Lake Shore elevator seventy-two hours after arrival at the owner's expense.

The Bicycle club gave another of its pleasant promenade concerts at the Princess rink last night and a fashionable party graced the occasion. The music and drill of the wheelmen were features, while Mr. Will McKinnie spread a royal feast for the assembly and added fresh laurels to his reputation as a caterer.

Last evening occurred the death of Mrs. Wm. T. Christy. The postmortem this morning conducted by Dr. Van Buskirk and others revealed a cancer of the liver. One of the votes the republicans claim as illegally cast for United States Senator Turpie yesterday, was that of Col. I. B. McDonald, joint senator from Allen and Whitley counties. They allege that if the constitution does not provide for the filling of a vacancy in the case of lieutenant governor, it makes no provision in the case of state senator and they further assert that Hon. Eli W. Brown has not resigned the seat. These are weak pretenses.

There is no older chestnut than the great ground hog joke of February 2. Then it is, according to the traditions which reach back to the time when the memory of man runneth not to the contrary, that the Arotomys Monax, alias American marmot, alias ground hog, alias woodchuck, awakes from his winter sleep, crawls out of his hole and looks around for his shadow. If he sees his shadow he crawls bach to the bosom of his family and there remains six weeks, knowing that it will continue stormy and blustering.

Mr. Geo. C. Miln and his company will this evening present "A Fool's Revenge," and to-morrow evening "Romeo and Juliet" at the Temple. Mr. Miln, on a former occasion, delighted a Fort Wayne audience in the role of *Richelieu*, and no doubt he is equally as great and effective in the difficult plays first noted. His success on the stage is acknowledged by the critics and he is steadily working his way into the school of foremost and famous tragedians. He is a scholarly and a progressive student of the drama.

Hon. R. C. Bell says the democrats at Indianapolis are going to maintain their rights, no matter what revolutionary practices the republicans resort to. He says that if the republicas expell members from the house, the democrats will retaliate in the senate. To show on what slim pretenses the republicans base their contests in the house it is only necessary to note that charges are filed against Hon. W. H. Shambaugh, citing that he obtained his election by bribery and fraud. Mr. Shambaugh is eighth in the calendar of republican contests.

The New York, Chicago & St. Louis railroad, which has been ordered to be sold by the sheriff, although the Vanderbilts supposed they owned it, was dubbed the Nickel Plate by a Norwalk, O., editor, because its officers were so flush with money in its construction. The road runs from Chicago to Buffalo and parallels the Lake Shore road the entire distance. It never did any business to speak of, and it was never intended that it should. When it was built there were more trunk lines than business between Chicago and New York, just as there are now. The whole affair was one gigantic game of financial bluff, and it succeeded.

Mrs. William Johnston and daughter Grace and Mrs. L. Fuller, returned home from Detroit Tuesday evening.

All advertising cards and charts have been removed from the Pittsburg depot and grounds by order of the company.

The Knights of Labor opened their co-operative store on Calhoun street today. It is in the Garvey block between Douglas avenue and Brackenridge street. Councilman Buttenbender is manager.

A young man named Schroeder, who lives south of town, was knocked from a wagon at the Olds' spoke factory by the arch-way yesterday, and he sustained severe if not fatal injuries. A year ago his father was struck by a piece of steel, at the Olds factory, and died from the effects of it.

Mr. Geo. Miln played a three night engagement at Grand Rapids. In impersonating the role of *Bertuccio* in "A Fool's Revenge" Tuesday evening, he was called before the curtain after each act. Mr. W. F. Clifton, of the party, is given quite a send off.

Where to Buy Your Overshoes!

The sharp competition in prices of rubbers this season has caused many dealers to lose sight of quality in their efforts to meet prices and they have sold inferior goods that prove even cheaper in quality than in price. The result is A GREAT KICK among the buyers and an increasing demand for RELIABLE GOODS.

The Hoosier Shoe Store

Has sold THE "CANDEE," which is to-day acknowledged the best brand in the market and is undoubtedly the most serviceable rubber made. Buyers should remember that rubbers are made in many different grades and that it is quite impossible for one not acquainted with the makes to tell the poorest from the best. The only safety is in dealing where where only good goods are sold.

The Hoosier

Has the largest, finest and most reliable stock of shoes in all descriptions to be found in the State.

MATHEMATICAL STORMS NEEDED.

The genial, gentle rain has come again. It is the poet who sits in a cosy library, beside a big fire, dressed in a comfortable dressing-grown and easy slippers, with a two-bit cigar or a pipe of the finest tobacco, and writes of the rain he hears pattering on the window, who is responsible for this expression: Once in a coon's age a man may feel rain that is genial and gentle, but this kind of weather, this kind of straight up and down, business-like, so many inches a day rain is neither genial nor gentle. The farmer stands in one patch of his ranch in a pair of gum boots and a suit of overalls and a slouch hat, and thanks heaven for the rain, and he moves into another patch and curses the luck that brings rain there. If Providence wanted to do the square thing by this earth he would have little clouds made in parallelograms, and rhomboids, and quadrilaterals, and triangles, and drop them down to order of the farmers, who would only need to give specifications of their fields and put 10-cent special delivery stamps on their requests. But the fact is that the country is enriched at the expense of the dry goods stores and all the legitimate occupations of town. What a fine time we should have in the way of weather if it were not for the farmers.—*San Francisco Chronicle.*

A GOOD GIRL.

"Now, Minnie," said a mother to her 4-year-old daughter, "I want you to play with your little brother while I am down town."

"An' what will bring you bring me?"

"Never mind, I will you something, and now mind you, if he wants to play with your toys you mustn't cry."

"Nome."

When the lady returned the little girl ran to her and said:

"I played with my little brother. Now what did you bring me?"

"Mamma brought you an orange. Where's little brother?"

"He's sleep. Gimme orange."

She took the orange and said: "When he grabbed my dishes I didn't cry."

"You didn't? Why you are a good little girl."

"Yessum, an' when he grabbed my doll I didn't cry oiver."

"Didn't you?"

"Nome."

"What did you say?"

"Nuffin', but I knocked him down wif the little chair."—*Arkansaw Traveler.*

The Weather.

WASHINGTON, Feb. 3.—Following are the weather indications:

Indiana, fair weather, colder and northerly winds.

The cool winds chill the heart of the ice cart driver, and he now sits shivering on his box, a blue nosed victim of dispair; the striking words "use Dr. Bull's Cough Syrup" stare him in the face.

Worth his weight in gold, Salvation Oil. 25 cts.

WHAT A FARCE!

Some of the Republicans Meet and Appoint a Committee to Prepare an Election Contest Against Senator Turpie.

INDIANAPOLIS, Ind., Feb. 3.—The republicans do not admit the legality of Turpie's election to the United States senate or that the work of the joint convention was perfected in the proceedings of Wednesday.

On the other hand, the democrats claim that the record is valid and the joint convention adjourned yesterday sine die.

In accordance with the motion of Representative Gardiner, which the republicans say prevailed, the joint convention reassembled to-day at noon, with all the democrats and seven republican senators absent.

Speaker Sayre presided and the clerk of the house called the roll of both houses in the presence of a crowd as as large and as keenly interested as any that have assembled in the house of representatives from day to day during the contest.

Ten senators and fifty-six representatives of the republican side answered, but the democratic members were silent. They were regarded as absentees until the roll of that class was called, when the speaker announced the presence of each one, but not answering.

Representative Gardiner then accented a preamble and resolution, reciting the illegality of the election of Turpie and the pretended adjournment of the joint convention sine die and calling for an investigation, in order to prepare a roll of contest to be presented to the United States senate. The resolution provided for the appointment of; a committee of five to pursue this investigation and to prepare a memorial.

The paper was adopted and the committee appointed thereunder consists of Senators Winters and Puston and Representatives Gardiner, Griffiths and Linch. An adjournment was then had.

FAIR WARNING.

Three Negro Murderers Labeled and Lynched by the Road Side in Texas.

SAN ANTONIO, Feb. 3.—A mob of masked men, about thirty-five strong, entered the jail at Sequin, Guadalupe county, early yesterday morning, and after overpowering the jailer, took three negroes, Coly Thompson, Andy Williams and Warren Wilson, and hanged them to trees in full view of town. On each victim was tacked this notice: "Killed for Murder and Arson." Several weeks ago the victims attacked a camp of four Mexicans and shot two to death. They heaped brush on the bodies of their victims and burned them almost to a crisp.

FRIGHTFUL.

A Michigan Settler is Attacked and Eaten to Shreds by a Bear.

CHEBOYGAN, Mich., Feb. 3.—Julius Hanley, a settler near Wolverine station, thirty miles south of this village, while locating section lines through the woods on snow shoes, came suddenly upon a ravenous bear a short distance from his cabin, and a terrible encounter ensued. Hanley's ears and nose were bitten off, his face frightfully slashed and the flesh on his breast torn off in strips. One hand was chewed off and the bowels apparently ripped open. He was found in his cabin in a dying condition. Hanley fought with a pocket knife.

RAPIDLY RISING.

The Heavy Rains Threaten a Flood in the Ohio Valley and a Deluge at Cincinnati Imminent.

CINCINNATI, O., Feb. 3.—Beginning at 1 o'clock this morning and continuing until 7 o'clock there was a heavy and almost constant rain fall, accompanied by lightning and thunder. The river which at midnight was forty-five feet and four inches, reached forty-eight feet and four inches at 9:30 o'clock this morning. This rate of rising is due to local causes, the Licking river being the chief cause. Still the rain above will keep the river rising for several days and there will undoubtedly be necessity for the removal of goods in the lower cellars of the houses near the river.

2 p. m.—The condition of the river is causing the liviest speculation among persons having goods in the lower lands of the city, as to what stage it will reach. At noon it was forty-nine feet and eleven inches and rising six inches an hour. The rain stopped about 7 o'clock and the thermometer began steadily falling, but advices from up the river show a heavy rain storm falling at all points above.

The Big Sandy is rising rapidly and will reach twenty-five or thirty feet, while the Ohio at Catlettsburg is rising at a rapid rate. At Portsmouth the Ohio is rising six inches an hour, with a flood guage in all the tributaries and with a rising river from Pittsburg down. There is a probability that the river here may reach sixty feet, even if a cold wave comes to-night. At fifty-two feet many cellars will be submerged. The rain fall here in the past twenty-four hours was 2.9 inches.

BELVIDERE, N. J., Feb. 3.—There is an immense ice gorge in the Delaware river, near Shawnee, Pa. The ice has been piled up fifty feet and the water has been forced out of its natural course and overflows the lowlands.

THE STRIKE.

Agents are Sent to Western Cities for Men to Take the Place of the Strikers.

CINCINNATI, Feb. 3.—The Knights of Labor who have been watching the matter closely, say that agents are here trying to employ men to take the place of the strikers in New York City and that they are offering free transportation and $15 to $18 a week, with extra pay for over time. It is asserted that the fifty men who have been obtained here were joined by the Knights, who on the way will endeavor to dissuade them from working against the interests of the workingmen.

NEW YORK, Jan. 3.—Very little freight is being moved along the river front this morning and most of the railroad piers on the west side are still closed.

GUNS VS. TREATIES.

Senator Riddleberger Explains His Position on the Fishery Question.

NEW YORK, Jan. 3.—Patrick Ford, of the *Irish World*, has received a letter from Senator Riddleberger explaining why he voted against the fishery retaliation bill, in which he says: "If we would have the respect of England we must command it, and there is but one way to command it. Beginning with retaliation, so called, will ultimately end in treaties which may swap American citizens for boodle alderman. Guns are better guarantees against insults and injuries than paper treaties. Such is my humble opinion."

STRICT DISCIPLINE.

It is pretty generally known that the discipline of the German army is very strict. The martinets who are in command are very punctillious. One day a soldier appeared on dress parade with the bottom button of his vest unbuttoned. It immediately caught the eye of the inspector.

"What do you mean, sir?" he shouted, growing as red as a turkey cock, "what do you mean by appearing on dress parade half naked?"

THE privilege of talking with a woman 111 years old is not to be expected often in a lifetime, writes a Vienna correspondent of the *London Times*, and one must therefore value such an interview as I had this afternoon with Magdalene Ponza, the oldest of the Emperor Francis Joseph's subjects, who entered her 112th year on Christmas Eve. She was born at Wittingau, Bohemia, in 1775, when Maria Theresa sat on the Austrian throne. George III. had then been but fifteen years king of England, Louis XVI. who had ruled a little more than a twelvemonth in France, was still in the heyday of power, the independence of the United States of America had not yet been declared. Napoleon and Arthur Wellesley were as yet but six years old. Magdalene Ponza retains full possession of her mental faculties. Unfortunately she can only speak the Czech language, and she can neither read nor write. However, she answers questions briskly enough through the youngest of her surviving grandchildren, herself a woman of 60. Magdalene Ponza's age is authenticated by the outdoor-relief certificate of the Viennese municipality, which, with magnificent generosity, allows her 4 florins and 40 kreutzers—about 6s. 6d.—a month. The venerable dame lost the last of her teeth thirty years ago, but she has an excellent appetite, eats meats minced, drinks a little beer daily, and hobbles about her room without much difficulty with the help of a stick. Sixty years of her life were spent in her native village, more than thirty years in another village, and she was past 90 when she came to Vienna, seventeen years ago. All the doctors who have seen her pronounce hers to be one of the most extraordinary cases of longevity on record, for she complains of no ailments beyond a slight asthma. Her worn face, with its countless wrinkles, does however, look preternaturally old.

GELLER'S NEW PLACE

His New Chicago Bakery and Ice Cream Parlors to be Opened to the Public on Saturday Afternoon and Evening—Don't Fail to Make a Visit.

A SENTINEL representative was yesterday accosted by Mr. W. F. Geller, of the famous Chicago bakery, with the remark, that knowing the fastidious tastes of a newspaper man, who, by the way, eats just like any other mortal, he was very desirous of showing him through his new place of business, which was to be opened to the public on Saturday. Some time ago Mr. Geller purchased the Remmell block, corner of Broadway and Washington streets, with a view to converting it into a bakery, his constantly increasing business demanding the change and he to-day justly points with pride to an establishment second to none in the state. The building has been changed from cellar to garrett and every change carefully considered and made to conveniently suit the bakery business. On entering the salesroom on the first floor the fine display of fancy cakes in endless variety, creams, French candies and bon-bons is equal to a Chicago lay out. Passing on through you are ushered into the ice cream parlors, the most elegant apartments of this kind ever seen in the city. The decorations are grand and were executed under Mr. Geller's special directions by William Yergens. The furniture and carpeting are superb and lend a decidedly inviting look to the room. The chandelier for lighting this room deserves more than a passing notice. It is of the finest polished brass and of the latest and most expensive pattern, making a splendid contrast with the rich decorations. The ice cream manufactory also occupies the rear of this floor, where he manufactures every flavor of that luxury known to the trade.

The second floor has been partitioned off into rooms conveniently arranged and handsomely furnished to be occupied by him as living apartments.

On reaching the third floor we were shown the work room, or where the process of baking is done. The mammoth bake oven, with a capacity of five hundred loaves of bread, is ten feet in height and something entirely new, was purchased of Roth, McMahon & Co., of Chicago, and known as the portable reel oven and is the only one of the kind in Indiana. It is built of sheet iron. The bread in pans revolves on the inside, on the same principle as the turning of a reel, thus doing away with the old-fashioned oven, in which a fire had to be made and then the ashes removed previous to baking. On this floor his work benches stretch along the sides of the room, dough trays here and there and in fact all the modern conveniences to be found only in a really first-class bakery. The public are cordially invited to come and see the art of making bread in his establishment and look through the building. An elevator is always at the service of visitors and pleasant attendants will show you around. The formal opening will be on Saturday afternoon and evening.

Back to the Berry Street M. E. Church.

After a week of overwhelming success at the Academy of Music, the Methodist alliance has retransferred the revival meetings to the Berry Street M. E. church. Mrs. Frame, the brilliant revivalist, has been induced to tarry in the city a short time longer and will continue to exert her influence to bring the people to the foot of the cross. Last night a great concourse of people attended the meeting and the auditorium and balcony of the church became so crowded with eager auditors that it was found necessary to lock the doors against a further increase of numbers. At the conclusion of the sermon many went forward to the altar. Many persons gave their experience and it was a genuine surprise to see the large number of young folks rise and give testimonials of their work and love for the Master. The meeting will be held again to-night and persons desiring seats should be on hand very early.

A QUESTION ABOUT
Brown's Iron Bitters
ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily.

BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. *Physicians and Druggists recommend it.*

The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

Vincennes has just completed a system of water works and now the city is afforded ample protection against fire as well as all the conveniences that attend a ready water supply. The works are quite extensive, having the highest stand pipe in the United States and two large pumping engines with a capacity of 2,000,000 gallons per day.

FESTUS MCDONOUGH, an Alameda, Cal., convict, who escaped from a Sheriff by jumping from a moving train, owed his recapture to his love of music. He is a fine performer on a flute, and in his flight across the country after leaping from the cars he lost a joint of his flute. He retraced his steps for seven miles in a vain search for it, and in this way lost so much time that the Sheriff overhauled him. He was given a new flute on condition that he would disclose where he buried his handcuffs.

LOGAN's death leaves but four persons living who ran for the Vice Presidency on either of the two principal tickets—Hamlin, Pendleton, Wheeler, and English—Hamlin and Wheeler being elected. Hayes is the only ex-President living. Within less than a year and a half two ex-Presidents—Grant and Arthur—have died. Within thirteen months one Vice President—Hendricks—has died, and within less than two years there has died an ex-Vice President. Four men who were unsuccessful in their canvass for the Presidency have died within a little over a year—McClellan, Hancock, Seymour, and Tilden—and one unsuccessful Vice Presidential candidate—B. Gratz Brown. English alone remains of the national candidates of 1880. Of the men, successful and unsuccessful, who have run for the Presidency, all are dead save Fremont, Hayes, Blaine, and Cleveland.

Catarrh
Is a very prevalent and exceedingly disagreeable disease, liable, if neglected, to develop into serious consumption. Being a constitutional disease, it requires a constitutional remedy like Hood's Sarsaparilla, which, acting through the blood, reaches every part of the system, effecting a radical and permanent cure of catarrh in even its most severe forms. Made only by C. I. Hood & Co., Lowell, Mass.

Very cold weather is reported from the northwest and snow at Chicago.

A timely Dose, and an external application of *Pond's Extract*, will stop and cure Coughs, Colds, Inflammations or Hemmorrhages of all kinds. It is well to keep a bottle of this wonderful remedy at hand for all emergencies. *Get the Genuine.*

Rheumatism

We doubt if there is, or can be, a specific remedy for rheumatism; but thousands who have suffered its pains have been greatly benefited by Hood's Sarsaparilla. If you have failed to find relief, try this great remedy.

"I was afflicted with rheumatism twenty years. Previous to 1883 I found no relief, but grew worse, and at one time was almost helpless. Hood's Sarsaparilla did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley Village, Mass.

"I had rheumatism three years, and got no relief till I took Hood's Sarsaparilla. It has done great things for me. I recommend it to others." LEWIS BURBANK, Biddeford, Me.

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion*; 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

WAR SHIP OR GUNBOAT.

WHICH SHALL PREDOMINATE IN THE FUTURE NAVIES?

The Argument in Favor of Small War Vessels and Torpedo Boats—What Europe Is Doing in the Matter—Recent Trials.

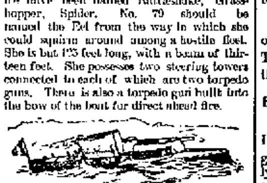
According to Admiral Porter, "the grand total appropriated during the year for the increase of the United States navy has been $5,647,617." The result is that the navy has dwindled down to twenty-eight vessels that can be actually used for active service. "Twenty of these," says the admiral, "are only third rates and five of them are about equivalent to tugs." Millions have been wasted on "repairs" though. An effort is being made to remedy this neglect by beginning the construction of a navy at once. The navy department at Washington is besieged by designers of war ships and plans of coast defense. Inventors are giving all their attention just now to the subject of warfare. But the problem before the navy department is, whether we shall have a large fleet of small and swift torpedo or gunboats, with a few cumbersome iron clads, or whether it shall be plenty of large war ships and a few small ones. A point argued in favor of the smaller vessels is that they can be quickly built and the heavier work of protecting the harbors and cities along the coast can be left to the land forts and batteries. At this time it is interesting to note what is being done on the other side of the Atlantic in the matter. The foreign periodicals teem with illustrations and descriptions of war engines of all kinds, but it is noticeable that considerable attention is given in naval experiments to small gunboats. Two of the latest vessels of this class are presented here.

AN ENGLISH TORPEDO BOAT.

The illustration shows a torpedo boat, No. 79, just submitted to a trial by the British government. Its number would indicate that there were seventy-eight similar boats to be constructed. On the trial trip the boat was put to the most severe tests to satisfy the admiralty board and the speed realized surpassed anything heretofore found in vessels of similar character. On a continuous run of two hours' duration the boat sailed a distance of nearly fifty-two miles. Two miles were made at the rate of twenty-six and a half miles an hour. Then the manoeuvering of the boat was tested. When going ahead she turned in fifty-eight seconds in a circle whose diameter was eighty-five yards, when backing she turned in a circle of sixty-five yards diameter in sixty-five seconds. Some of the larger torpedo boats in the British service have been named Rattlesnake, Grasshopper, Spider. No. 79 should be named the Eel from the way in which she could squirm around among a hostile fleet. She is but 125 feet long, with a beam of thirteen feet. She possesses two steering towers connected to each of which are two torpedo guns. There is also a torpedo gun built into the bow of the boat for direct ahead fire.

THE NEW FRENCH GUNBOAT.

This is the latest addition to the French fleet of small and fleet war vessels; it is named the Gabriel Charmes after its designer. Charmes was an enthusiast on the subject of revolutionizing the style of war vessels. He held that the unwieldy ironclad floating batteries had served their time, and that the future navy would consist only of single gun boats. His articles on the subject created a sensation, but he died without knowing that his ideas had been approved. The present minister of the French marine, Admiral Aube, ordered the construction of a boat to test the value of young Charmes' idea.



SECTION SHOWING METHOD OF OPERATING GUN.

His boat has just been tried with most satisfactory results. She is 134½ feet long, 12⅓ feet wide and 8⅓ feet deep. Her hull weighs 27 tons, her machinery 22 tons and her single gun 11⅓ tons. In the sectional view is shown the method of operating the gun. The carriage of this piece is arranged so that the force of the recoil at the moment of firing not only puts it under cover during the reloading but also brings it into place again when ready for firing.

The gun has a caliber of only 5⅓ inches, but owing to very energetic explosives used the destructive results are very great. The gun being placed immediately in front of the pilot house permits of the horizontal aim being given to it by the pilot. The firing of a projectile weighing sixty-six pounds can be performed at the rate of one a minute. The method of passing the ammunition up to the gun is shown in the illustration. On the trial trip this vessel showed a speed of twenty-three miles an hour.

In the matter of other small torpedo boats the French have 9 under 70 feet in length: 41 under 100 feet; 18 of 108 feet, and 51 of 114 feet; in all 123 of high speed and armed with machine guns only, besides their torpedoes.

England has more torpedo boats than France. There are 189 of the following lengths: 84 of less than 114 feet; 53 of 125 feet, and two longer.

Quite an Embarrassing Situation.

A rather comical adventure befell two very stylish young American married ladies the other day on the boulevards. They set out to take a stroll and to look at the shops, and while slowly making their way along the crowded thoroughfare they were struck by the amount of attention that they excited. People stopped and gazed at them, and altogether they felt themselves quite the success of the afternoon. Suddenly one of them chanced to look around and realized the situation. "Good gracious, Kitty!" she gasped, "we are walking between two of the sandwich men of the Paris Casino—we are being taken for advertising women!" The sudden way in which my pretty young countrywomen disappeared down the nearest side street can better be imagined than described. —Paris Cor. Philadelphia Telegraph.

They Couldn't Help It.

Alexander conquered worlds, Napoleon made great nations tremble at his approach, but neither of these illustrious men could eat asparagus without spilling some of the melted butter upon their shirt fronts.

SETTLED ON THE SPOT.

After standing in front of the store for several minutes, seemingly undecided what to do, he entered and asked for the proprietor and then began:

"My ole woman was gwine 'long yere las' night and fell down on your sidewalk and busted her elbow."

"Ah! Well, being you are a poor man I'll make the charges as light as possible!"

"But dat hain't de case, sah. A lawyer tells me dat you is 'sponsible fur dat slippery sidewalk, an' dat I kin git damages."

"Exactly, but you don't understand the matter. In the first place you must fee your lawyer and put up for court expenses. Then you prove that I own the sidewalk. Then you prove that your wife was not guilty of contributory negligence. Then you prove that your wife didn't bust her elbow by falling down stairs. Then I appeal the case and the higher court grants a new trial. By that time your wife and her busted elbow are dead and buried and you are married again, and you offer to settle for five pounds of brown sugar."

"Fo' de Lawd! but has I got to wade frew all dat?"

"All that and more. The grocery business is cut so close that I shall probably be bankrupt by April, and then what good will a judgment do you?"

"Dat's so—dat's so."

"Or the case may hang in the Supreme Court until both of us are dead."

"I see. And you would gin two pounds of brown sugar to settle de case now?"

"Well, yes."

How to Gain Flesh and Strength

Use after each meal Scott's Emulsion; It is as palatable as milk and easily digested. Delicate people improve rapidly with its use. For consumption, throat affections and bronchitis it is unequalled. Dr. Thomas Prim, Ala., says: I used Scott's Emulsion on a child eight months old; he gained four pounds in a month.'

In the Hop Plasters the virtues of fresh hops are combined with strengthening and stimulating balsams, and its cures of weak back, pain in the side, rheumatism, neuralgia or pain in the chest are simply marvelous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

The price of coke has been advanced 50 cents per ton.

The Breath of a chronic catarrh patient is often so offensive that he cannot go into society and he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked and frequently entirely destroyed. A constant source of discomfort is the dripping of purulent secretions into the throat, sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant results which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only real cure.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

Councilman Milton M. Webber called at our office this morning and requests us to state that he is in favor of having the laws enforced. He says it don't make any difference who they touch, let them be enforced. Mr. Webber is strictly in favor of closing all saloons in the city and suburbs at 11 o'clock at night and on the Sabbath day, providing all are served alike.

The following circuit court jurors were selected by the commissioners yesterday: Edward Carey, Joseph Fry, Lewis Fox, city; John Douglas, Cedar Creek township; Joseph Bolinger, Lafayette; Wesley Holopeter, Cedar Creek; Tyler Gillett, Milan; Joseph Whittaker, Adams; Wm. Schomp, Perry; Victor Cavalier, Lake; Archibald Bell, Lafayette; Nicholas Madden, Eel River.

Prosecuting Attorney Dawson says the day and night police officers, or the constables, can enforce the liquor laws if they desire to do so, or if the municipal officers insist on it. He also feels that the press should create a strong public sentiment backing such an enforcement and doubts that such a sentiment predominates now. He says he has been seeking information from the Reform League, but individually they decline to act and collectively they are silent. Mr. Dawson admits there is need of reform and points to the fact that not only officers, but courts, lean toward the Liquor League, from the fact that the lowest possible fine is always imposed on offenders. It is now in order for the municipal authorities to speak out.

For 1,700 years February 2d has been a Roman Catholic holy day.

On the Wabash, under the receivership of Judge Cooley, there is a general reorganization of the various departments in progress and economical measures are being introduced wherever practical.

Chief Deputy Sheriff Wise and Deputy Sheriff Hance are selling the bankrupt stock of Jonas Smith at Sheldon. Outside creditors flocked out there to bid in the stock to save themselves.

The Albion *Democrat* says: "We regret to learn of the serious illness of A. J. Markey, of Fort Wayne. He was reported much better on Thursday last. Mr. Markey was for a long time in business in Albion, and won the esteem of our citizens, as an affable gentleman and upright business man."

In a recent interview Congressman Lowry admirably says: "I am opposed to removing the internal revenue on tobacco, for the reason that the reduction should be on necessaries first. A reduction of internal revenue taxes would be urged as sufficient reason for no further reduction of tariff duties. I favor a reduction on sugar. I think it would be desirable."

A lodge of the United Order of Honor was instituted in this city last evening, by Grand President Henry Wessel and Supreme Secretary Ernest Duden, both of Indianapolis. The following officers were elected: T. W. Blair, P. P.; C. E. Graves, president; H. M. Diehl, vice-president; J. N. Frentzel, secretary; James Wilkinson, treasurer; George Shepley, chaplain; Wm. The councilmen again wrestled with the revised ordinances last night and finished consideration of the street, sidewalk and sewer laws. The question of restoring to the city ordinance book the enactment making it unlawful for the proprietor of a saloon or tippling house to keep the doors of his place of business open on Sunday still hangs fire and will come before the general council. City Attorney Colerick pronounces it constitutional, in fact it was formerly the law for years until ex-Councilman Hettler secured its repeal in the council. It is claimed that under its provisions the police and marshals can strictly enforce the Sabbath laws and its disposition will be watched with a good deal of interest.

Mr. C. S. Brackenridge is assisting in the clerical work of rearranging the revised ordinances.

The next legal holiday will be February 22, the anniversary of General Washington's birthday.

Columbia City *Post:* "Will Markwood is now stationed at Fort Wayne, in the employ of the Pittsburg, Fort Wayne and Chicago Railroad company."

The change in the weather has caused much sickness in the city. Children appear to be the greatest sufferers, but their illness is not of a serious nature, bronchitis being the most common.

Mrs. McBride, wife of Judge McBride, who recently presided in the superior court here, continues in poor health and for six weeks has been unable to leave her bed only as assisted by her family.

The freight agent of the Lake Shore and Nickel Plate railroads has notified consignees that hereafter all grain arriving at Buffalo over those roads will be stored in the Lake Shore elevator seventy-two hours after arrival at the owner's expense.

The Bicycle club gave another of its pleasant promenade concerts at the Princess rink last night and a fashionable party graced the occasion. The music and drill of the wheelmen were features, while Mr. Will McKinnie spread a royal feast for the assembly and added fresh laurels to his reputation as a caterer.

Last evening occurred the death of Mrs. Wm. T. Christy. The postmortem this morning conducted by Dr. Van Buskirk and others revealed a cancer of the liver. In the gall bladder was found seventy-eight gall stones and the liver weighed nearly nine pounds, being very abnormal. Mrs. Christy's funeral will take place Saturday at 2 o'clock from the residence, corner of Hoagland and Creighton avenue. Friends are invited to attend.

One of the votes the republicans claim as illegally cast for United States Senator Turpie yesterday, was that of Col. I. B. McDonald, joint senator from Allen and Whitley counties. They allege that if the constitution does not provide for the filling of a vacancy in the case of lieutenant governor, it makes no provision in the case of state senator and they further assert that Hon. Eli W. Brown has not resigned the seat. These are weak pretenses.

There is no older chestnut than the great ground hog joke of February 2. Then it is, according to the traditions which reach back to the time when the memory of man runneth not to the contrary, that the Arctomys Monax, alias American marmot, alias ground hog, alias woodchuck, awakes from his winter sleep, crawls out of his hole and looks around for his shadow. If he sees his shadow he crawls back to the bosom of his family and there remains six weeks, knowing that it will continue stormy and blustering.

Mr. Geo. C. Miln and his company will this evening present "A Fool's Revenge," and to-morrow evening "Romeo and Juliet" at the Temple. Mr. Miln, on a former occasion, delighted a Fort Wayne audience in the role of *Richelieu*, and no doubt he is equally as great and effective in the difficult plays first noted. His success on the stage is acknowledged by the critics and he is steadily working his way into the school of foremost and famous tragedians. He is a scholarly and a progressive student of the drama.

Hon. R. C. Bell says the democrats at Indianapolis are going to maintain their rights, no matter what revolutionary practices the republicans resort to. He says that if the republicans expell members from the house, the democrats will retaliate in the senate. To show on what slim pretenses the republicans base their contests in the house it is only necessary to note that charges are filed against Hon. W. H. Shambaugh, citing that he obtained his election by bribery and fraud. Mr. Shambaugh is eighth in the calendar of republican contests.

The New York, Chicago & St. Louis railroad, which has been ordered to be sold by the sheriff, although the Vanderbilts supposed they owned it, was dubbed the Nickel Plate by a Norwalk, O., editor, because its officers were so flush with money in its construction. The road runs from Chicago to Buffalo and parallels the Lake Shore road the entire distance. It never did any business to speak of, and it was never intended that it should. When it was built there were more trunk lines than business between Chicago and New York, just as there are now. The whole affair was one gigantic game of financial bluff, and it succeeded.

Mrs. William Johnston and daughter Grace and Mrs. L. Fuller, returned home from Detroit Tuesday evening.

All advertising cards and charts have been removed from the Pittsburg depot and grounds by order of the company.

The Knights of Labor opened their co-operative store on Calhoun street today. It is in the Garvey block between Douglas avenue and Brackenridge street. Councilman Buttenbender is manager.

A young man named Schroeder, who lives south of town, was knocked from a wagon at the Olds' spoke factory by the arch-way yesterday, and he sustained severe if not fatal injuries. A year ago his father was struck by a piece of steel, at the Olds factory, and died from the effects of it.

Mr. Geo. Miln played a three night engagement at Grand Rapids. In impersonating the role of *Bertuccio* in "A Fool's Revenge" Tuesday evening, he was called before the curtain after each act. Mr. W. F. Clifton, of the party, is given quite a send off.

When used persistently Salvation Oil never fails to cure rheumatism and neuralgia. Price 25 *cts.*

Where to Buy Your Overshoes!

The sharp competition in prices of rubbers this season has caused many dealers to lose sight of quality in their efforts to meet prices and they have sold inferior goods that prove even cheaper in quality than in price. The result is A GREAT KICK among the buyers and an increasing demand for RELIABLE GOODS.

The Hoosier Shoe Store

Has sold THE "CANDEE," which is to-day acknowledged the best brand in the market and is undoubtedly the most serviceable rubber made. Buyers should remember that rubbers are made in many different grades and that it is quite impossible for one not acquainted with the makes to tell the poorest from the best. The only safety is in dealing where where only good goods are sold.

The Hoosier

Has the largest, finest and most reliable stock of shoes in all descriptions to be found in the State.
